

ANNUAL REPORTS

Town of WAKEFIELD
1967 **MASSACHUSETTS**

ON THE COVER

Construction . . . the sights and sounds of progress, a growing community facing the problems of growth. This is the artist's conception of the modern addition now under construction at the Lucius Beebe Memorial Library. Expansion of Wakefield Library facilities typifies the continuing need for expanded community service. An additional view of the proposed construction appears with the Library Trustees report.

VOTING IN WAKEFIELD, ELECTIONS AND POLITICAL ORGANIZATIONS

Prepared by the League of Women Voters
(Revised 1967)

To Be A Voter, A Person Must Be

- an American citizen (native-born or naturalized)
- 21 years or more in age
- a resident of Massachusetts for at least one year
- a resident of Wakefield for at least six months
- registered as a voter

To Register As A Voter, A Citizen Must

- appear in person before an authorized Registrar of Voters
- sign his (or her) name
- give evidence of citizenship if naturalized
- prove ability to read the Constitution in English, (with the one exception that if he has gone to a school under the American flag where English was not the primary classroom language, and had completed at least the sixth grade, he need not so read the Constitution.)

When and Where to Register:

9:00 A.M. to 4:30 P.M. Monday through Friday in the Town Clerk's office.

7:00 to 8:00 P.M. Tuesday evenings in the Town Clerk's office.

Or at especially designated places in precincts, within two weeks of the closing of registration, which may be scheduled by the Town Clerk and announced in the Wakefield Item.

However no registration takes place between the 32nd day preceding and the day following the State and Presidential Primaries and the State Elections nor between the 20th day preceding and the day following the annual Town Election.

Registration is permanent unless a voter moves to a new city or town or changes name by marriage. A voter, moving from one precinct to another within the town, should immediately notify the Registrars of the change to assure being able to vote in the new precinct, otherwise he must vote from his former address.

Registrations are administered by the Board of Registrars. The Board is composed of three citizens, appointed for three year terms by the Board of Selectmen, and the Town Clerk, who by virtue of his office, serves as clerk of the board.

Polling Places

1. Precinct 1—Lafayette Building
2. Precinct 2—Greenwood School
3. Precinct 3—St. Joseph's Hall
4. Precinct 4—Hurd School
5. Precinct 5—Franklin School

Local elections are held annually on the first Monday in March to elect certain officials and members of boards for their respective terms.

Local elections are non-partisan. Write-ins are permitted, but absentee voting is not allowed in local elections.

To Become a Candidate for Local Office, a Citizen Must

- secure nomination papers from the Town Clerk (one set of papers for each office to appear on the ballot)

- obtain signatures of 50 registered voters

- submit nomination papers with the Board of Registrars for certification 7 days preceding the 28th day before the Town Election

- file with the Town Clerk by 5 P.M. on the 28th day before the Town election. (This places the candidate's name on the ballot officially, providing the papers are properly certified.)

The Town Clerk administers election. The Board of Selectmen annually in August appoints election officers to supervise voting at the polls. These include five wardens and five clerks.

To Join a Political Party

A voter must declare his party choice as he enters the polls to vote in the primary elections.

To Change or Cancel Party Enrollment

A voter must appear in person at the Town Clerk's office and present the request in writing. This may be done any time except when registration is closed, immediately preceding elections.

A party member is eligible to be a delegate to his party conventions. Membership on the town Democratic and Republican Committees is determined by ballot every four years at the Presidential Primary. A non-party member is called an "Independent" voter, or an "un-enrolled" voter.

The Annual Report of the Town Officers is published each year and is available at the time of Town Meeting and also at the public library. The report includes all financial data pertaining to the costs of town operating expenses.

Procedure of Town Meeting

The Moderator, an elected town official, presides at town meetings. He begins to read the call for the meeting. Usually a motion is made to waive further reading of the warrant (with the exception of the constable's return which the law demands be read) and the motion is carried. Articles in the warrant are taken up in order as they are printed in the warrant unless it is requested by a two-thirds vote that they be taken up otherwise.

The recommendations of the Finance Committee are given before voters discuss or act upon an article. For the annual town meeting, these recommendations are available a week to ten days before the meeting in booklet form, called "Annual Appropriations for 196-," and may be obtained at the Selectmen's Room at Town Hall.

Following the Finance Committee's recommendations or the recommendations of such special department as may be permitted to make recom-

mendations, the sponsor of the article is usually allowed to present his case. The voters may then debate the question according to rules of parliamentary procedure prescribed by the town's by-laws such as:

- Stand, address the Moderator, give name and address clearly, confine remarks to the question under debate and avoid personalities.
- Speak for not more than 10 minutes at any one time, unless granted permission by the meeting. No voter may speak more than once on any question if other voters desire to be heard, and no voter may speak more than twice on the same question without permission of the meeting.
- Speak not more than two minutes on any one of the following motions:
 - Motion to adjourn
 - Motion to lay on the table
 - Motion to take from the table
 - Motion to put the previous question
 (These motions only are in order when a question is under debate. Total time allowed for debate on each motion is six minutes.)

A two-thirds vote of the assembly is necessary on a motion which requires a bond issue. A vote may be reconsidered at the same session or at adjourned session upon two-thirds vote of the assembly. The Moderator may request a voter to put his motion in writing. Should seven voters doubt the accuracy of the Moderator's count of hands on a motion, tellers are appointed to make the count. The Moderator clarifies motions when they are especially complex.

Conduct at the town meeting is further governed by the rules of practice, as they are pertinent to town meetings, in Cushings' Manual of Parliamentary Procedure.

The Town Meeting Warrant and the Annual Report*

The warrant is composed by the Selectmen, with articles being entered by request or petition. Individual voters may have an article inserted by petition. The Selectmen receive all petitions for the warrant, except those having to do with sidewalks, drainage, sewers and streets which must be submitted to the Board of Public Works. Signatures of ten or more registered voters are required on articles for annual town meetings; 100 signatures are required for articles filed by citizens in warrants for special town meetings. Signatures on petitions must be exactly as the voters' signatures appear on the voting list. Voters may request the advice of the Town Counsel in drawing up an article. Customarily, public announcement is made of the opening and the closing dates of the warrant. Citizens, however, may take their petitions to the Selectmen at any Board meeting during the year and the Selectmen will hold such articles for insertion in the warrant for the next town meeting. Department heads enter their articles by the process of request.

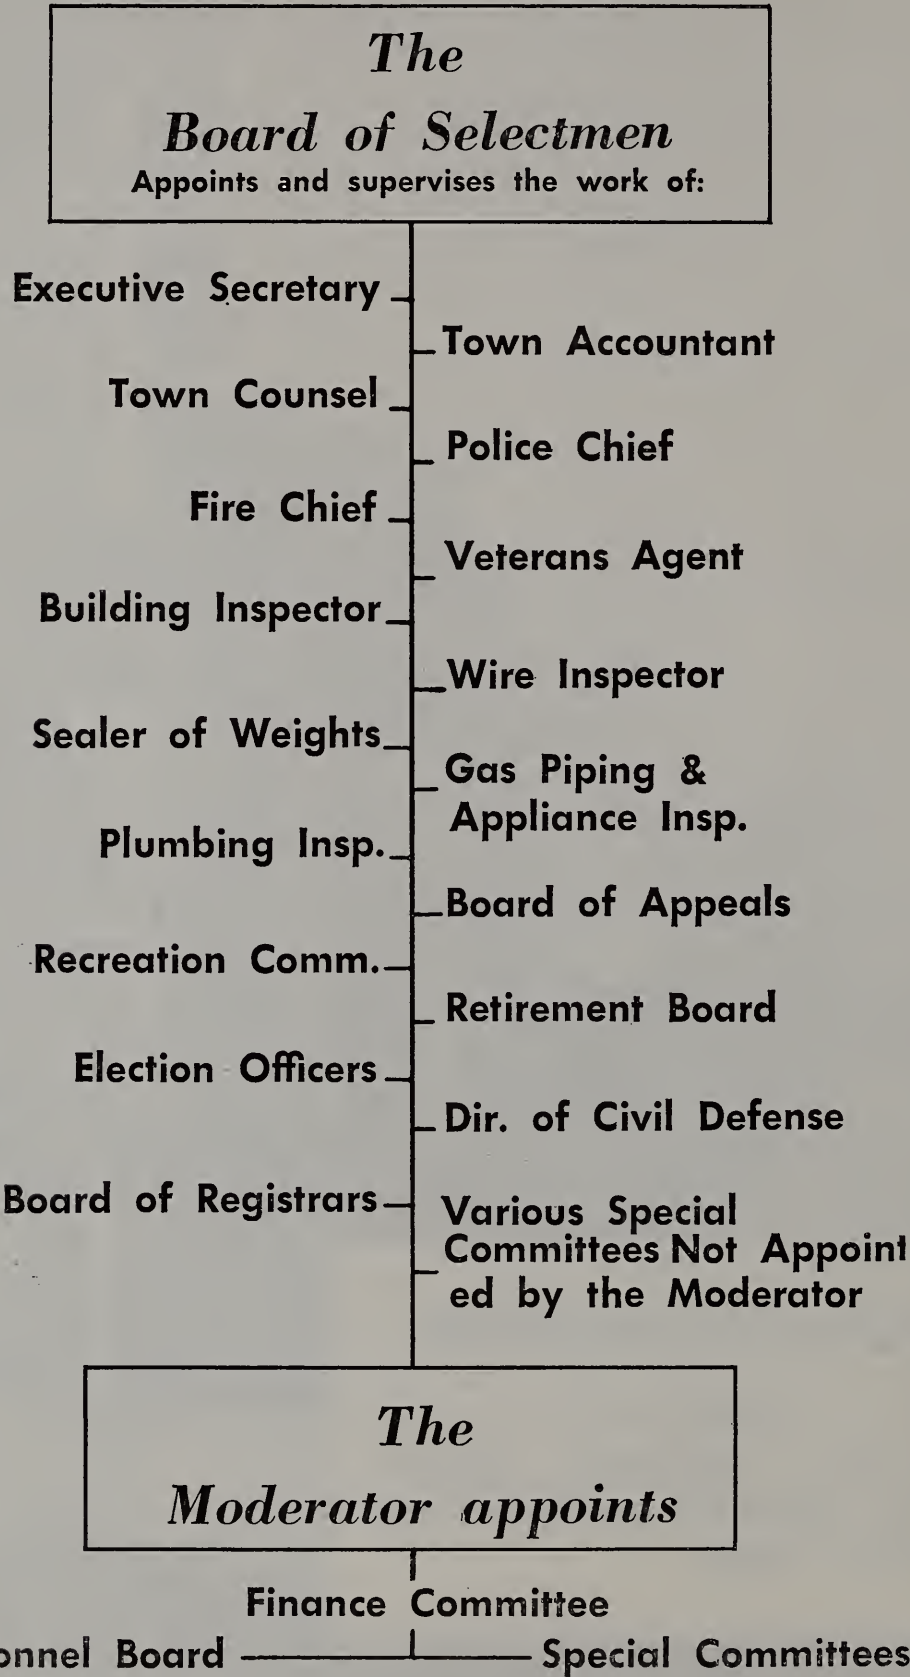

* Town Meeting Warrant — A collection of articles presented by departments, committees and voters for consideration by voters at an annual or a special town meeting.

Report of the Board of Selectmen

Burton F. Whitcomb, Chairman
Lawrence J. McCluskey, Secretary
John W. Moccia, Jr.
Hugh J. Morgan, Jr.
Sabatino Benedetto

At the Board's organizational meeting, following the Annual Town Meeting in March, Burton F. Whitcomb was elected Chairman, and Lawrence J. McCluskey was elected Secretary. Other Board members are Representative Hugh J. Morgan, Jr., John W. Moccia, Jr. and Sabatino Benedetto; John J. McCarthy, Executive Secretary and Margaret M. Brady, Clerk of the Board.

The policy making function of the Board of Selectmen and the administrative function of the Executive Secretary was succinctly summarized in the "Know Your Wakefield" publication by the League of Women Voters:

"The powers, duties and responsibilities of the Board of Selectmen are broadly diversified in approximately seven hundred sections of law applying directly to Selectmen together with the hundreds of other sections of law that bear upon Town problems in general.

"The Town has continued to function under the Board of Selectmen-Executive Secretary plan of Municipal Administration. This plan maintains the Selectmen in their traditional role as managers of the municipality and yet gives cognizance to the need for a central official to carry out delegated administration assignments within a designated framework of policy set down by the Board of Selectmen.

"The broadly diversified powers, duties and responsibilities of the Board of Selectmen extend throughout the administration of all town departments and a central co-ordination is essential to an effective and efficient municipal administration.

"Communication, budgetary control and co-ordination of departmental activities are among the more important advantages available through the office of the Executive Secretary who also serves as budget analyst and Town Accountant. This combination of functions have continued to provide an effective consolidation of administration effort."

The Board of Selectmen and the Executive Secretary have continued to represent the Town's interest before governmental officials, committees and commissions at the various levels of government for the purpose of presenting information and evidence on matters which concern the Town of Wakefield.

The necessity for effective liaison between the Town and Metropolitan Agencies has been accentuated by the membership of the Town in the Metropolitan Bay Transportation Authority and the Metropolitan Area Planning Council. The Executive Secretary to the Board of Selectmen has served as an Advisory Board member of the Metropolitan Bay Transportation Authority as well as a member of the MBTA Executive Committee and as Chairman of the seventy-nine member Advisory Board Budget

Committee. The Executive Secretary has served as town representative to the Metropolitan Area Planning Council and also as a member of the MAPC Executive Committee. The Town's active participation is necessary to the Town's effective representation in an area of activity that involves a current dollar cost as well as a progressively increasing economic-social impact in future years.

The Fire and Casualty Insurance program which extends to all municipal departments and provides for various types of required protection amounted to a premium cost of \$40,366.93. The Town's schedule of Real Properties was reviewed by an independent appraiser in order to maintain current values for insurance purposes.

The Workmen's Compensation insurance program extends coverages to all insurable departments of the Town at a premium cost of \$27,179.12.

The program of pre-employment physical examination, which was initiated in 1963 is continuing to function to the benefit of the Town. This program is geared to protect the Town against costly premature retirements and employer's liability applying to employment accident claims. The program also protects prospective employees from assuming employment responsibility for which they are not physically qualified.

The Group Insurance program of medical-surgical hospitalization and life insurance benefits authorized for Town employees by referendum action in March 1958 and extended to cover employees who retired after original acceptance of the legislation which provided group insurance benefits to Town employees (Chapter 595, Acts 1959) continues to present the best features of any plan of protection for Town employees. There are presently 552 employees, 40 pensioners and 103 Optional Medicare members of the Town included in this program. The gross premium cost amounts to \$151,211.38 of which amount the Town contributed \$75,732.77. The Town's share of dividend on the life insurance program amounted to \$1,983.00 for the period January 1, 1966 through December 31, 1966.

Chapter 763 of the Acts of the year 1965 became effective on February 16, 1966 in legislative enactment of collective bargaining for municipalities. Municipal employers are prevented from (a) interfering with the right of employees to organize for the purpose of collective bargaining, (b) dominating or interfering with any employee organization, (c) discharging or discriminating against any employee who testifies before the State Labor Relations Commission on a certification proceeding, (d) refusing to bargain collectively in good faith with a designated exclusive bargaining agent, and (e) refusing to discuss grievances with the bargaining agent. The statute states "the municipal employer shall be represented by the Chief Executive Officer, whether elected or appointed or his designated representative or representatives." It has been determined that the Board of Selectmen is the Chief Executive Officer in Towns for the purpose of this statute, except as applies to School Department personnel. This legislation is providing a costly and complex impact on municipal administration in Massachusetts. The Board of Selectmen appointed Executive Secretary John J. McCarthy, Town Counsel Francis C. McGrath, Jr. and Public Works Director Richard C. Boutiette as delegated representatives in collective bargaining procedure with the established Public Works Unit.

Town Counsel was authorized to engage the services of Special Counsel on Labor Negotiation and Attorney Edward Schneider was so engaged.

The Board appointed election officers and tellers for service at the polls for the year 1967 and the Committee on Election Procedures was continued in its function of reviewing election procedures and providing liaison between the Board of Selectmen and precinct wardens. This Committee has enabled the Selectmen to remain in closer contact with the function of elections for which they are responsible, (i.e. wardens' meetings, elections, electronic voting equipment compared to currently available mechanical voting equipment).

The Board of Selectmen authorized the Department of Public Works to incur liabilities in excess of the appropriation for snow and ice expenditures in accordance with the provisions of Chapter 44, Section 31 of the Massachusetts General Laws.

In accordance with Chapter 234 of the Massachusetts General Laws, the Board of Selectmen are responsible for the preparation of a jury list of qualified citizens for the selection of service in Superior and Federal Courts.

The Board of Selectmen continued the practice of presenting wallets with the seal of the Town embossed to all enlisted and drafted servicemen departing from the Town.

The Board approved a rate of 2.59% for an amount of \$1,000,000 in anticipation of tax revenue and a rate of 3% for an amount of \$3,000 for Chapter 90 work.

The Board observed with regret the deaths of the following retired employees:

Dennis P. Hogan

John F. Scott

Frank A. Tredinnick

Walter E. Peterson

Jeremiah J. Peck

and the following active employees:

Leonard F. Loughlin

Charlotte E. Crayton

Fifty-five treasury warrants totalling \$13,162,964.87 were approved by the Board in payment of salaries, wages, invoices and maturing debt.

Appointments made by the Board of Selectmen for 1967:

Clerk to the Board of Selectmen, Margaret M. Brady

Veterans' Service Agent, Richard J. McGrail

Plumbing Inspector, Kenneth G. Shaw (resigned May 31, 1967)

TRAFFIC COMMITTEE

Selectman John W. Moccia, Jr., Chairman, Police Chief J. Merritt Wenzel, Fire Chief William P. Hurton, Director of Public Works Richard C. Boutiette, Municipal Light Department Manager Michael F. Collins. Alternates—Lieutenant William R. Connors, Michael T. Collins, Walter Alden, John J. Curran and Robert S. Abraham.

Lieutenant Walter V. Maloney, Jr. and Lieutenant Robert S. Abraham were appointed to the position of Fire Captain. Leon E. Bayrd, Richard J. Goodwin, Elmer M. Holloway and Thomas H. Collins were appointed permanent firefighters. Anthony A. Lavery and Robert W. Larkin were appointed provisional call firefighters. George E. Margeson and Theodore Parsons, Jr. were appointed to the Auxiliary Fire Department. William L. Young, Erville Kelsey and John Classen retired as call firefighters.

Warren J. Sheehan, Jr. and John S. McLaren III were appointed permanent patrolmen. Arthur E. O'Keefe was appointed permanent reserve patrolman. George Benedetti, Robert A. Doucette, Joseph A. Gesauldo, James T. Guttadauro, Carl P. Jay, Gilbert H. Bridge, James R. Harvey, George S. Mallinson and Richard C. Smith were appointed to the Wakefield Auxiliary Police Department. Marie C. Cahill, Madeline A. Erickson, Rose C. Hayes, Ann M. Sharp and Barbara A. Lomas were appointed traffic supervisors.

Richard D. Ellis was appointed an associate member of the Board of Appeals to fill the vacancy caused by the resignation of William J. Doherty.

Merritt H. Tenney was appointed warden of Precinct 4 to fill the vacancy caused by the resignation of David Hodgdon.

J. Henry Sleeper was appointed C.D. radio officer to fill the vacancy caused by the resignation of Francis George.

John E. Ewart resigned from the Recreation Commission which position was not filled to comply with the provisions of Article 49 of the Annual Town Meeting of 1967 to reduce the membership of the Recreation Commission from 7 members to 5 members.

Mr. F. Leo Delory was elected to the Wakefield School Committee at a joint meeting of the Board of Selectmen and School Committee to fill the vacancy created by the resignation of Lawrence Fitzgerald for a term to expire on March 4, 1968.

Upon acceptance of Chapter 401 of the Acts of 1966 by Article 8 of the Special Town Meeting of June 19, 1967, it was voted to include the Tax Collector, Town Clerk and Town Treasurer in the Workmen's Compensation coverage.

Report of Board of Appeals

The Board of Appeals, a quasi-judicial body, operates under the zoning by-laws of the Town of Wakefield and Chapter 40A of the General Laws of the Commonwealth of Massachusetts.

During the year ending December 31, 1967, the board held twenty-three hearings. One case, held in December, did not have the decision recorded with the Town Clerk at year's end, and one other case is still on appeal in Superior Court on a postponement.

There have been several personnel changes on the board in 1967. Mr. William J. Doherty and Mrs. Paul D. Everett, Jr., Clerk, resigned. Appointed to fill an existing vacancy was Mr. Edward J. Grazewski. Mr. Richard D. Ellis was appointed to replace Mr. Doherty and Mrs. Chester E. Lee has replaced Mrs. Everett. It was with regret that the resignations were accepted, but it is gratifying to note the continuation of their good work by the new members.

Appeals hearings are advertised twice in the Wakefield Daily Item and held Tuesday evenings in the Memorial Hall of the Lafayette Building.

Respectfully submitted,

DAVID H. RAMSAY, Chairman

Report of Town Planning Board

Four new subdivisions were approved in 1967, two of which are currently under construction. These represent a total of 113 new house lots, and are located as follows: Millbrook Lane, southerly from Water Street; Briarwood, easterly of Montrose Avenue; West Park Estates, southerly from Albion Street; and Oak View Park, northeasterly from Oak Street.

Three subdivisions, Heritage Hollow, Forest Glen, and Wilson Road Extension, were completed.

The Planning Board held 40 regular meetings, 4 informal meetings, 4 public hearings on subdivisions, 2 on proposed zoning amendments, and 1 on the proposed revision of the Rules and Regulations Governing the Subdivision of Land in Wakefield. The revised Rules and Regulations were printed and are available at the office of the Department of Public Works.

The Board has studied over 85 land use problems during the year.

No Federal funds have been allotted as yet to carry out the study of the business and civic center of Wakefield, although the Board has been notified by the Bureau of Planning Assistance of the Massachusetts Department of Commerce and Development that the Town's project is high on the priority list.

The Planning Board has been concerned with the refuse disposal problem and has given all possible assistance to the Board of Public Works in the areas in which zoning and land use are involved.

The amendments to the Zoning Bylaws proposed by the Board and adopted by the 1967 annual town meeting provided several much needed checks on the use of land for and the location of swimming pools in residential districts.

Again this year the personnel of the Planning Board has undergone considerable change. Leonard I. Singer was elected to the 4 years remaining of the 5 year term formerly held by Robert J. Adams. Benito G. Barsanti was elected to the remaining year of the 5 year term made vacant by Burton C. Parker's resignation upon moving from Wakefield.

In July Benedict J. Quirk resigned after serving 2½ years, 1½ years of which he was chairman of the Board. His term, which runs to 1970, has not been filled.

Town Engineer Michael T. Collins, or his assistant Donald Gagnon, has been present as a consultant at all meetings and hearings held in 1967.

Respectfully submitted,

Report of Personnel Board

The Wakefield Personnel Board was completely reorganized following the 1967 Annual Town Meeting. Town employees are no longer members of the Board, all five members being Moderator appointed. This new alignment allows for free interchange with the several department heads and the frank expression of opinion, but denies the direct access to the employee needs and desires.

Following the concept that a good wage and salary administration program is basic to a sound personnel program, the Wakefield Personnel Board has continued its course designed to update the personnel by-laws making them clearer, more flexible and more easily administered.

The continuing rise in municipal costs is of grave concern to the Personnel Board. The cost of sophisticated equipment and annual pay increases being borne by the taxpayers is not being offset by increased efficiencies. It is readily apparent that all town activities must direct much of their effort toward a more efficient operation which will partially balance the increasing costs.

A grainy, black and white photograph showing a crowd of people in the foreground, mostly seen from the back or side. They are looking towards a large, multi-story building in the background. The building has many windows and a flat roof. There are some trees and what looks like a fire truck or emergency vehicle near the building. The overall scene suggests a public gathering or an emergency situation.

CONCLUSION

In the year 1967, two additional policemen were added to the regular force, as follows:

John S. McLaren, III, appointed 6/18/67

Warren J. Sheehan, Jr., appointed 10/15/67

These two appointments brought the total force of regular men to forty.

In accordance with town policy of furthering the training of police officers, every effort has been made to take advantage of any schooling offered by the Massachusetts State Police, the F.B.I., and other organizations interested in informing the police on new laws and methods. There are three officers who are increasing their education on their own time and through their own efforts.

In this report, I should like to thank all those who have been of assistance to us in the performance of our duties during the past year and all those courteous citizens who have written us personal notes commending the conduct of the department in various services to the public.

Respectfully submitted,

J. MERRITT WENZEL

Report of Director of Civil Defense

The Civil Defense organization continues to function under the general direction and control of the Board of Selectmen as is required under the provision of Chapter 639 of the Acts of the year 1950.

There is one paid employee serving as office clerk and field agent. The director and all other members of the organization are serving on a volunteer basis.

The management, control and direction of the Auxiliary Fire and Police Departments have continued under the jurisdiction of the Chiefs of the respective departments, as has the operation of the Civil Defense rescue truck.

The Civil Defense Communications Group remained effectively available during the year under the direction of Chief Radio Officer J. Henry Sleeper.

James T. Hurton resigned as Director on October 11, 1967 and William P. Hurton was appointed by the Board of Selectmen as Director on November 16, 1967.

All auxiliary agencies operated both effectively and efficiently to the advantage of the Town during the year 1967.

Respectfully submitted,

WILLIAM P. HURTON

Director of Civil Defense

Report of The Recreation Commission

The Recreation Commission in its endeavor to benefit the entire community, inaugurated a varied and popular recreation program this past summer. In addition to a full schedule of swimming and playground activities, the recreation Teenage Block Dances at Veterans' Field, as well as Golf and Tennis tournaments rounded out a most successful season.

Before the start of the summer's activities, the instructors were required to attend a two-day Playground Institute, sponsored by the North Shore Community College of Continuing Studies at Beverly. The purpose of this institute was for them to learn leadership techniques and to improve their daily programs.

Another requirement on the part of all instructors was to take an up-to-date course in First Aid. Certificates were awarded to the class by the American Red Cross.

Special events during the summer season were: a visit to the North Shore Music Theater to see "Rumplestiltskin"; a visit by the M.D.C. Zoomobile to the Common and Mapleway Playground; attending a baseball game at Fenway Park, Boston; traveling to Pleasure Island, Wakefield; a track meet at Walton Field for boys and girls; the Demonstration Day held annually.

The Demonstration Day started off with a parade of floats down Main Street to the Common. St. Joseph's Band furnished the music. At the Common championship, baseball and kickball games were held. "Miss Wakefield Playgrounds" was chosen and an Arts and Crafts display was held at the Common.

On the final day of the swimming season a swimming meet, featured by a long distance race the length of the lake, took place. The winner was awarded a silver cup and the winners of other events were awarded ribbons.

The largest number of junior golfers ever to enter a tournament in Wakefield Recreation history teed off at Cedar Glen Golf Course this past summer in order to compete for the championship of Wakefield.

The programs held for adults were: physical fitness programs for men and women at Atwell Building Gymnasium; golf for men and women at Dolbeare School; tennis lessons for women at Mapleway courts, in Greenwood; and a Tennis Tournament for men at Veterans' Field.

The Wakefield Softball Men's League at Veterans' Field was sponsored by the Recreation Commission.

Report of Board of Public Welfare

The Wakefield Board of Public Welfare respectfully submits its Annual Report for the year.

During 1967 there was an overall increase in the number of recipients in the five categories. The average cost of each program has increased, and as a result the total cost increased.

The various programs of assistance under the supervision of the Welfare Board are **General Relief, Aid to Families with Dependent Children, Disability Assistance, Old Age Assistance and Medical Assistance.** The last four are part of the Social Security Act and are governed by Federal and State Law. In order for a community to receive re-imbursement under these programs, the various laws passed by the Federal and State Governments regulating payments to the recipients both maximum and minimum must be adhered to, also the various laws and rules regulating accounting procedures to be followed, Administration, etc. Failure to comply with these various laws and regulations result in disallowances from the State and Federal levels.

The basic requirement for Public Assistance is "Need." Under its present laws governing the Administration of Public Relief, all needs are met. There is no maximum amount.

The preservation of human dignity, the maintenance of family units, and social rehabilitation constitute the underlying philosophy of modern public assistance. Various welfare conferences and workshops were held in 1967 for Social Workers of local Boards to get a broader knowledge and acquire new techniques in coping with social problems and changing laws.

Why are Welfare programs costing so much? The Federal and State Governments have liberalized and broadened the programs so much with the War On Poverty and have lowered the income level, that many now qualify that were ineligible before.

The Welfare Department consists of eight (8) full time employees and one (1) part time Junior Clerk. The agency is made up of the following: The Director of Public Assistance, three Social Workers, one Jr. Accountant, two Senior Clerk-Typists, one Jr. Clerk-Typist and one part time Jr. Clerk. All have Civil Service status which is required by Federal and State law. During 1967 the agency lost one valuable employee namely: Marylou Krawczyk.

The Board of Public Welfare would especially like to thank its various Town Departments for the co-operation extended to our Board. The Police Department, the Fire Department, Housing, Town Clerk, Public Works, School Authority, Veterans' Benefits and the following Civic Groups and Organizations: Red Cross, Elks, Salvation Army, Pleasure Island, YMCA and other governmental agencies.

The new Medicaid Program has increased the cost of government. Another reason for the increase in the case load and costs of Public Assistance is the increased life span of the average individual. Many in

the country have had to retire earlier than age 65 due to ill health which has caused some to apply for Social Security at a reduced amount and many have had to make application for Supplementary Assistance.

The Wakefield Board of Public Welfare is looking forward to the new Housing Project for the Elderly which will allow many to reside in living conditions and rentals within their reach and help raise their standard of living.

It was necessary during 1967 to request the Selectmen to call a Special Town Meeting for additional funds due to the Medicaid Program. As of the date of writing this report, it appears the Commonwealth of Massachusetts is going to assume the cost of all Welfare Programs in July of 1968. After a period of time, local offices will be closed and all services and employees will transfer to large centers of centralization. Many local community services will be curtailed when this centralization commences. It is a shame that good government and local controls must suffer, in order to pay the huge cost of Welfare for large cities.

The expenditures and receipts of all the local Welfare programs can be found in the 1967 Town Report.

This report has been prepared for the local Board of Public Welfare by Andrew P. Ring, Director.

Report of the Wakefield Housing Authority

667-1 — 667-2

As required by Section 26-U of the Housing Authority Laws (Chapter 121 of the General Laws), a copy of this Annual Report is sent to the State Housing Board, to the Board of Selectmen of the Town of Wakefield and the State Auditor.

The Wakefield Housing Authority during 1967 was concerned with the management of the existing fifty-two apartments, Project 667-1, and the development of the proposed sixty-four apartments, Project 667-2. These two phases of activity will be discussed separately, but first a description of the organization of the Authority might be of interest.

At the Annual Meeting of the Authority in March, the following officers were elected: Chairman, Arthur P. Loughlin; Vice Chairman, Bernard J. McDonald; Treasurer, Carl W. Belmore; Assistant Treasurer, Andrew P. Ring.

The remaining member of the Authority is Mr. O. Joseph Cerretani who was appointed by the Governor as the representative of the Commonwealth on the Authority. Mr. Cerretani's background and experience should make him an invaluable addition to the Authority.

Mr. James J. Curley was formerly the Commonwealth's representative on the Authority and his services to the Authority and the Town of Wakefield were recognized by a resolution which was adopted and spread upon the minutes of the Authority.

Mrs. Proctor Miller is the Executive Director and Secretary of the Authority.

In the management of the existing apartments, the Authority has continued its policy of periodically reviewing and updating applications and maintaining a priority list for tenancy. During the year, four vacancies occurred and were promptly filled from the priority list. At present there are seventy active applications on file with the Authority.

Mr. McDonald assumed the duties of the chairman with regard to the management of the existing apartments in order that Mr. Loughlin could spend more time with the development of the proposed apartments.

During the annual inspection of the apartments, it was found that almost all apartments were exceptionally well maintained and that the tenants were generally content.

With regard to the existing project, the following facts should be noted. Final payment was made to the general contractor and the architect. The troublesome problem of the crushed stone which was installed in place of the grass plot between the sidewalks and the curb stone was eliminated by having this area resurfaced with asphalt. Finally, the Authority has received a complaint that a fence post which marks its

boundary represents a hazard to children who slide in John J. Round Park in the winter. Negotiations will be conducted with the proper authorities of the town to assess and remedy this problem if it is deemed necessary to do so.

Plans for the development of the new apartments are progressing satisfactorily. Through the efforts of Mr. Hugh J. Morgan, Jr., our representative to the General Court, with the assistance of Senator Ronald C. MacKenzie, a bill was passed in the legislature which authorizes the Metropolitan District Commission to convey approximately five acres of the Hart's Hill Reservation to the town for purposes of a subsequent reconveyance to the Authority. The Authority wishes to publicly thank our legislators for their efforts in gaining passage of this legislation and, in particular, to thank Mr. Morgan who diligently shepherded this bill through the General Court. Negotiations are presently in progress to complete the transfer of the land in accordance with the provisions of the legislation.

Once this legislation was passed, the Authority was in a position to sign a contract for financial assistance with the Department of Commerce and Development, Division of Housing. Pursuant to this contract, notes dated December 6, 1967 have been sold in the amount of \$840,000.00. These notes will be due in June, 1968 at which time notes covering the present and the proposed project will be negotiated simultaneously.

The Authority has engaged the services of an attorney and an architect for the new development. The Authority has surveyed the land, taken test borings and is preparing the topographical maps. Once this work is accomplished, preliminary plans will be prepared for presentation to the proper regulatory town boards for approval.

It is hoped that ground can be broken in the spring of 1968 and it is anticipated that the new project will be completed in approximately one year.

Respectfully submitted,

WAKEFIELD HOUSING AUTHORITY

Report of Board of Public Works

To the citizens of the Town of Wakefield:

The Board of Public Works, as the administrative arm of the department, can report a year of determined effort and reasonable success in coping with the many problems that beset both individual citizens and the community as a whole during the past year of 1967.

At its organizational meeting, the Board welcomed new members Mitchell Hannoosh and Alan Cunliffe and elected Bartholomew D. Barry, Chairman, and W. Perry Farwell, Jr., Secretary.

A marked increase in the number of appearances before the Board by individual citizens was noted during the past year. All were treated with courtesy and understanding consistent with the interest of the community as a whole.

The routine annual programs, such as water relay, curb and sidewalk installations, sewer extensions, street improvements, Park maintenance, etc., were continued and completed within the target dates desired, as well as within the allocated appropriations.

The major problem besetting the community, the question of refuse disposal, climaxed during the past year with the temporary closing of the Saugus dump. Through the foresight and untiring efforts of the Director of Public Works, who succeeded in consummating a satisfactory stop-gap arrangement with the City of Lowell, the Town's citizens endured no inconvenience in this matter. The Commonwealth is now in control of the Saugus dump, pending Court action. At the urging and encouragement of the Board of Public Works, the Town Incinerator Committee has been reactivated and will have a report of plans and alternatives for the Annual Town Meeting.

In the matter of a Public Works garage facility, the Building Committee of the Public Works will present to the citizens two distinct and separate alternative plans in the form of two articles in the Town Warrant. These articles are the result of long and arduous meetings and discussions by the Committee.

The Department was faced this past year with the necessity of entering into collective bargaining for the first time in the Town's history. Through the mutual understanding and tolerance of all parties involved, the results were entirely successful and satisfactory.

The Board at this time acknowledges its indebtedness to the Director, the employees of the department and the various other Town boards and officials for their wholehearted and unselfish cooperation, which enabled the department to continue its tradition of efficiency and economy of operation in 1967.

To the Board of Public Works

Gentlemen:

As required by Chapter 48 of the Acts of 1950, an act authorizing the Town of Wakefield to establish a Board of Public Works, I respectfully submit for your consideration a report of the work accomplished in 1967, with recommendations for the future.

The major accomplishments for the year were:

1. Providing a stop-gap solution to our solid refuse disposal problem, wherein the DeMatteo Dump in Saugus was closed temporarily during September and October, by trucking to the City of Lowell Incinerator.
2. The curb replacement program initiated this year as the first phase of a ten year program was successfully completed.
3. All other maintenance programs were completed within allotted funds and on schedule including the resurfacing of approximately one and three-quarter miles of streets with funds from the State, under Chapter 679 of the Acts of 1965.
4. The third phase of the three year program for the completion of the Montrose Playground was started this year and with the construction of a new access road from Salem Street and the cutting of base paths should see this playground open to the public in late Spring of 1968.

For additional details of the work accomplished this year, you are referred to the following reports of the Division Supervisors.

The major Public Works problems that remain outstanding and have my strong recommendations for an early solution are:

1. Solid Rubbish Disposal—With the litigation now pending in the Courts regarding the closing of the Saugus Dump, makes this a very real and pressing problem which must be solved in 1968. It is urged that full cooperation be extended to the Incinerator Study Committee which is now working toward a speedy resolution of this problem.
2. Public Works Garage Facilities—With the growth of the Town and the resultant growth of the Department, it is now imperative that a facility be provided to adequately maintain our million dollar plus investment in equipment and to consolidate the Engineering Division with the Administrative functions of the Department, for more efficient operation.
3. Water Storage and Distribution—The formulation of a definitive plan for providing adequate fire and domestic water service to the community is long overdue. Our major difficulty has been the reluctance of the M.D.C. to change our existing contract to provide a more favorable contract with the Town. Even with this large expenditure facing the Town in the near future, it will be necessary

to study the water rate structure in 1968 to more closely equate the Department's revenue to operating expenses.

4. Saugus and Mill River Drainage—All of the Town's major drainage problems are dependent on the improvement of the channels of the Saugus and Mill Rivers. A bill will again be filed with the Legislature for corrective action to be taken by the State.

In closing, may I state that because of community growth, rapidly changing technologies and environment and the demand by the public for more and better services, it is increasingly necessary for the continued support and cooperation of all Town Boards as well as the townspeople to accomplish the assigned mission of this Department.

Respectfully submitted,

RICHARD C. BOUTIETTE,

Director of Public Works

REPORT OF THE ENGINEERING DIVISION

The Engineering Division provided all design, survey and inspection services required for all the various projects completed this year. Estimates, construction plans, specifications, contracts, supervision and inspections were provided for all streets, sidewalks, sewer, drainage and playground projects performed by private contractors and town forces as shown in the reports of the Division Supervisors of the Public Works Department. Sewer, drainage and highway easement taking plans and descriptions were prepared and filed in the Registry of Deeds. It is gratifying to report that we have accomplished these engineering functions without having to seek engineering consultant services, resulting in considerable savings to the Town.

Our staff has been bolstered by the addition of Donald Gagnon, an engineering graduate of Northeastern University. Survey and design functions were mostly completed prior to the construction season which allowed us to utilize our Northeastern University engineering students for construction inspection under the direction of Michael Vozzella, Senior Engineer.

Drainage projects of major importance completed this year consisted of the re-channeling of Montrose Brook from Montrose Avenue near Ledge-wood Road, to the Saugus River and the installation of a forty inch by sixty-five inch pipe arch culvert at Preston Street through private lands on New Salem Street and rechanneling along the southerly side of New Salem Street to the Mill River. Our sewer program for 1967 was completed except for providing for an outfall for the newly constructed Howard Street, Flint Street and Plaza Road sewers. The City of Melrose would not allow entry into their system at Hawley Road after previous approval, subsequently we have designed a lift station to be located at Plaza Road and the contract for construction has been awarded, work shall be completed early in 1968.

Assessments for all work accomplished under the Betterment Act were calculated and forwarded to the Assessors' office.

We have completed our Water Main Gate Location sketches, which should eliminate delays in locating these gates in an emergency. Our record sewer plans are now complete for the entire sewer system in the Town and it is now our intent to incorporate all existing drainage facilities on record plans.

Preliminary designs, estimated costs and assessments for all contemplated projects in 1968 have been compiled and forwarded to the Board of Public Works for recommendation.

Inspection services were provided for all active subdivisions in accordance with plans approved by the Planning Board, acting under the provisions of the Subdivision Control Law.

I express my appreciation to the Engineering Staff and to all Town Boards and Departments that have given me their cooperation and assistance this past year.

MICHAEL T. COLLINS

Town Engineer

REPORT OF THE HIGHWAY DIVISION

The areas of responsibility and the actual work accomplished by this Division are as follows:

- a. **Street Sweeping** — all streets were swept in the Spring; the business area was cleaned three times weekly, weather permitting; main streets were swept again this Fall. Approximately seven hundred and fifty sweeper miles of streets were cleaned.
- b. **Traffic Lines** — the following work was done by contract, under our supervision:

- 60,000 Lineal ft. Centerlines
- 750 Lineal ft. Stop Lines
- 16,084 Lineal ft. Parking Lines
- 11,203 Lineal ft. Crosswalks
- 46 Litterbug signs
- 91 Twenty-four inch letters
- 14 Arrows
- 4 Six feet Traffic Stands painted.

- c. **Curb Replacement** — this year began a new planned program of replacement of deteriorated concrete curbing. Five thousand six hundred eighty-two lineal feet of concrete curbing was removed and replaced with granite curbing. In addition, seventy-two driveway corner butts and eleven curb inlets were installed. I would like to point out that this work has been accomplished without adding to our budget, except for the cost of materials used. This was made possible by

increased production by our work-force and by more versatile equipment.

- d. **Highway Maintenance** — Normal patching as required for maintenance and patching in conjunction with Chapter 679 and Chapter 90 resurfacing programs was completed. A total of one thousand one hundred sixty-five tons of bituminous concrete was put in place by this Department during the year.
- e. **Sidewalk Maintenance** — One thousand one hundred fifty-two lineal feet of concrete sidewalk averaging six feet in width was removed and replaced this year on the following streets: Main Street, Madison Avenue, Francis Avenue, Water Street, Jordan Avenue, Cedar Street and Newell Road. One thousand eight hundred seventeen lineal feet of bituminous concrete sidewalk, average six feet in width was removed and replaced this year on the following streets: Pine Street, Cedar Street, Oak Street, Charles Street and Birch Hill Avenue. All of the sidewalk maintenance done this year was in response to complaints. We are aware of many other areas which need attention and are attempting to make temporary repairs as needed.
- f. **Drain Maintenance** — A total of 1,318 catchbasins were cleaned this year and approximately 990 cubic yards of sand, silt and debris was removed from the system. Our program of cleaning brooks throughout the Town was continued. A major item of this program was the cleaning and straightening of one of our major drainage downfalls. This section was from Montrose Avenue to the Saugus River and involved the cutting of brush and trees in an area 40 feet wide and 1,100 lineal feet long. All clearing was done by Town forces during the Winter months as weather permitted. The actual channel excavation was completed by a contractor, under our supervision.
- g. **Traffic & Street Signs** — This Division makes and installs all street signs and makes and installs all traffic control signs as directed.

21 New traffic signs installed

10 New street name signs installed

159 Traffic signs replaced

61 Street name signs replaced.

78 Street traffic sign posts installed.

Most of the street signs and many of the traffic signs which were replaced was the direct result of vandalism. I feel all citizens should be concerned in this matter, as the average cost to make and install these signs amounts to \$15.00 each.

- h. **Complaints** — This Division receives between three and four hundred complaints per year on all phases of maintenance. All complaints are recorded on forms for this purpose and as the complaint is rectified, the work done is noted and the complaint form is then filed.

Special Appropriations

1967 Chapter 90 Maintenance — One thousand eight hundred and forty-five lineal feet of Salem Street was resurfaced with bituminous concrete.

1967 Chapter 679 Resurfacing — The following streets were resurfaced with bituminous concrete:

Greenwood Street	1,341 Lineal ft.
Prospect Street	1,089 Lineal ft.
Nahant Street	1,650 Lineal ft.
Valley Street	2,423 Lineal ft.
Salem Street	3,008 Lineal ft.

Total 9,491 Lineal ft.

Note: Valley Street also had extensive work done on reshaping and widening to give a full 24' traveled way throughout its entire length.

1967 Drainage Construction — Contractor — Sears & Schofield Contracting Co., Inc.

a. Installed 350' of 40"x65" pipe arch from Preston Street, southwesterly along New Salem Street.

Also, did 1,000 feet of channel improvement along New Salem Street to the Mill River.

b. Hawthorne Street — 400 feet of 12" reinforced concrete pipe.

Note: Hawthorne Street and Laurel Street were reshaped and graded and resurfaced by the Town forces and repaved with bituminous concrete (1,045 lineal feet).

1967 Sidewalk Construction — Contractor — Benedetto Brothers, Inc. Construction at the following locations:

- 16 Bartley Street
- Broadway—from the existing westerly end, south side,
215 feet westerly to the B.&M. railroad.
- 20 Cedar Street
- 65 Cedar Street
- 101 Cedar Street
- 43 Chestnut Street
- 87 Gould Street
- 1268 Main Street
- 61 Nahant Street
- 37 Pleasant Street
- 157 Vernon Street
- White Circle—north side from Vernon Street,
570 feet westerly to No. 19.

1967 Street Construction — Contractor — Mario Susi & Sons, Inc.:

King Street

Wyoma Street

Special Gift — As a result of the installation of a telephone trunk line on Main Street from Green Street to Greenwood Square, the New England Telephone and Telegraph Company made a gift to the Town of Wakefield, which in conjunction with our maintenance allowance was used to resurface with bituminous concrete 3,385 lineal feet in this area.

This Division is also charged with the responsibility of permanently patching all water relay, sewer main construction and water and sewer service trenches installed by the Water and Sewer Divisions. We are also charged with the plowing, sanding and salting and removal of snow in streets, sidewalks, Town parking areas and schools. Assistance has also been given to other Divisions on request, and during our times of need, we have been granted assistance from other Divisions.

In closing, I would like to thank all Division heads and all Public Works employees for their cooperation and efforts throughout the year.

Respectfully submitted,

WILLIAM A. FENNELLY,

Supt. of Public Works and

Highway Supervisor

REPORT OF FORESTRY AND PARK DIVISION

The Forestry and Park division has completed by contract, the enclosure of our Town tree nursery with chain link fencing, a total of 347 feet, in addition to the installation of chain link fence at the Montrose Playground and backstop of 420 linear feet.

The tree planting program was completed in its entirety on three accepted streets and numerous replacements made in other locations. A total of 135 trees were planted.

The Dutch Elm disease program this year has improved and reduced the number of elms lost in many locations. This was due to the increase in rainfall and the conscientious spray program by this division.

With the addition of a new aerial lift, the tree division will undertake all line clearance for the Municipal Light Department, increasing departmental cooperation.

Our new stump machine has increased our tree stump removal including many stumps from last year.

In conclusion, the park division has removed many old shrubs in the larger grass triangles, improving grass mowing operations. Next year, we intend to replant these triangles with few shrubs and more colorful plant material.

ROBERT J. BELANGER,

Supervisor

CEMETERY DIVISION

Old Cemetery — (Church Street)

In addition to our regular maintenance work, all monuments that were toppled over by vandals have been set up and repaired.

Forest Glade Cemetery

The year 1967 was a year of heavy grass cutting. Frequent drenching rains kept the grass in a vigorous growing condition the whole season. This fact, along with the great increase in interments brought our maintenance problem to a point where it demanded more than its usual proportion of our time.

An area of 2914 sq. yds. has been cleared in preparation for a new section of single graves.

Approximately (2) acres of land was cleared of trees, stumps and then thousands of yards of fill, that was surplus on other municipal projects, was graded for the future expansion of the cemetery.

Approximately 1256 sq. yds. of Avenues has been resurfaced and 560 linear feet of 6" water main was installed. 200 linear feet of chain link fence was installed on the boundary of the east side.

The following statistics are from 1967 Cemetery records:

Interments	
Adults	129
Infants	11
	—
	Total 140
Foundations	86

In closing, I wish to thank the director, Superintendent and supervisors of all the Town Departments for their cooperation, without which my work would have been a great deal more difficult.

Respectfully submitted,

PHILIP COLANTUONIO,
Supervisor

ORGANIZATION—1967

REPORT OF THE SCHOOL COMMITTEE

Two new members joined the School Committee this past year. Mr. William H. Clark was elected in March. Mr. F. Leo Delory was appointed in October.

To the retiring members, Mr. Harold Staunton, after 9 years, Mr. Lawrence Fitzgerald, after 7½ years, the School Committee is grateful for their combined effort and contributions given so generously toward the continuous growth and development of the Wakefield School System.

Committee reorganization in September resulted in the following election of offices:

Lenora P. LeCours, Chairman
Irene E. Hennessy, Secretary
William H. Clark, Treasurer

The outgoing chairman, Mrs. Gertrude M. Spaulding, served admirably during a difficult budget period. The unknown financial implications caused mainly by the unknown factor of sales tax funds available and the state's increase of Wakefield's total property valuation presented an unclear "aid" situation. The 1966 state fixed "equalized" local property valuation increased from \$135 million to \$160 million. This factor increased our per pupil valuation from \$20,557.00 to an equalized \$24,786.00 valuation per child. This increase, in turn, dropped our share of state-aid percentage from 34.5% to 21.6% among the 350 cities and towns in the commonwealth. This means Wakefield receives less aid than 250 other cities and towns.

The School Committee welcomed education sub-committee members of the finance committee as observers to our meetings this past year in an effort to bring better liaison between the two groups relative to budget and the many factors leading to budget preparation.

Reorganization of the Administrative Organization

The School Committee gave thoughtful study and consideration to the "Administrative Study" committee's recommendations. Actions by the Committee resulted in the creation of the position of Assistant Superintendent, Mr. Lucian J. Colucci, and the enlarging and broadening of Mr. Robert J. Snow's position to Administrative Assistant for Business Affairs. Later the Committee appointed Mr. John J. Powers to the position of Supervisor of Buildings and Grounds.

The ever increasing complexities of School Administration in modern times, coupled with Wakefield's greatly increased school population, additional facilities and the increasing faculty, were contributory factors leading to our positive action.

Mr. Stephen Maio was appointed principal of the Junior High School, filling the vacancy created by Mr. Lucian J. Colucci's administrative promotion.

For the most part, the school employees now have a working contract and the right to negotiate annually. The School Committee voted to retain a professional negotiator (for the first time) to handle contractual negotiations with our employees. At the time of this report negotiations have not been settled.

Course changes and extensions approved

—**Business:** Course in Typing III to complete course for seniors who started typing in their sophomore year.

Course in Notehand for seniors and juniors in the college preparatory course.

—**Science:** Course in Earth Science for pupils in non-college courses in grades 11 and 12.

—**Language:** Introduce German at the 9th grade level to enable students a four-year course of study.

—**Distributive Education:** New course added.

—**Industrial Arts:** Revision of basic course of study.

—**Summer School:** Expanded at all levels—addition of pre-first program.

Joined METCO program.

—Budgetary programming to meet the standards adopted by the Committee relative to all libraries and audio visual needs.

—Reading as a subject be non-graded in elementary grades 2, 3, and 4.

—Curriculum changes resulting in further expansion of departmental programs in elementary grades.

—Teacher-coordinator for Elementary French Program.

—Guidance services further expanded at the High School level by the addition of an Adjustment Counselor.

Department Chairmen

Reorganization of Department Heads: This involved broadening of scope, duties and responsibilities, qualifications and title change to Department Chairman, addition of an Assistant Department Chairman, and scope from grades 1 to 12.

Drugs

The School Committee initiated, what is planned to be, one of the first continuing preventive and cure programs on Drugs and Drug Abuses in the state. The success of the program, to date, can be attributed to the dedication and devotion to our youth by many employees, citizens, and elected officials.

Tuition rates voted by the Committee for the 1967-68 school year:

Elementary	\$356.38
Junior High	\$438.92
Senior High	\$505.99

Retirement:

The Committee accepted with deep regret the retirement of the following dedicated people from our staff:

Mrs. Helen Brown
Miss Ruth Conley
Mrs. Lora E. Harris
Miss Pauline E. Meads
Mrs. Edith Stewart

The Committee observed with deep sympathy, and regret, the untimely, accidental death of Miss Charlotte Crayton, an elementary school teacher. Miss Crayton had only been with us since September — a superior person and teacher.

Each year the School Committee must face new facets and complexities in maintaining and establishing direction to the School System. Federal and State involvement is increasing each year. The State Board of Education's approval of kindergartens for all public schools within the next few years poses the problem of housing. Wakefield does not have the needed space. The recommendations of the moderator appointed "Building Needs and Survey Committee" will be heard at Town Meeting.

Your School Committee has endeavored to meet all problems with solutions applicable to Wakefield's school needs, coupled with the town's ability to support these needs.

To the Wakefield School Committee:

Education in our community and our society in general is facing a deepening dilemma. The rapidity of change is placing new and difficult demands on the total educational organization. Unless one is specifically involved with the educational processes it is difficult to note what is happening. However, the problem of providing education for our youngsters today who will be living in our space age society in the year 2000 requires that every facet of education must be re-evaluated.

In the area of curriculum, it is obvious that people still need to read and write and have a basic understanding of arithmetic. The teaching of reading, language arts and arithmetic skills then, except for new techniques, remain relatively constant. But from this point on, the curriculum must make some rather dramatic shifts in the future if it is to provide the learning experiences that children should have. In the field of science, for instance, there have been some basic changes since World War II. The explosion of the atom bomb dramatically altered our text books, our scientific thinking and our scientific concepts. The research done in the area of medicine, that is, psychiatry, biology, etc., has dramatically altered our approach in teaching biology and health fields. More recently the space age ushered in a new era with new concepts and new understandings to be acquired. In the field of social studies, the emerging nations in Africa and Asia have completely re-directed history in recent years. The need to study the past history of the African and the Asian is imperative if we are to develop adequate understanding of history as it involves each day. In other disciplines, such as business education and industrial arts, there are a multitude of changes that are taking place, and they will continue perhaps more rapidly in the future. The new technology that has developed in the industrial field alone requires a definite kind of educational development in industrial arts and technical education. Distributive education and data processing have completely changed the curriculum in business education.

In the past it would take up to 10 to 20 years for a new demand to make its way into the educational process. Today the time has been reduced to 3 to 5 years. I will not labor this point by continuing but the activities that must take place to provide for these kinds of changes are far reaching. Information must be developed and readily available to teach new courses and new concepts. Teachers must be trained and retrained so that they can provide learning experiences for our students. Materials, equipment and space requirements change because the demands are different in these new areas in many ways. The time needed alone to develop new courses and to make plans for new procedures requires a great expenditure and in man power. The budgetary implications, space, personnel, materials and equipment are also of serious concern. All these factors point out that education must be in a fairly fluid state, that beyond the few basics that fundamentally are unchanged, some dramatic things must happen. I would like to mention to you now some of the things that have happened this last year to provide the kind of educational setting that we need.

In the area of personnel, we have provided an in-service program in the form of teacher workshops. We have changed our supervisory procedure. For example, all new teachers to our system receive weekly observations through the month of September and monthly through the Christmas Holiday. These are not to determine what's wrong for disciplinary action but rather to identify weak areas and to provide direction to improve them. We have changed our recruiting process and attempted to recruit from a nation-wide basis. We have developed a recruiting brochure and distributed it to colleges and universities throughout the country. We have organized a formal recruiting procedure with evaluation guides and questionnaires to assist us in the selection of the best talent available. We have expanded our pre-school orientation program to provide the best start possible for our new staff members. In the area of student teachers we have expanded this program and developed a formal procedure whereby prospective student teachers are evaluated and oriented before they join us, and then are evaluated by our own staff as well as the college while they are teaching. In this way, we protect the quality of instruction in our own system and at the same time are able to identify outstanding prospective teachers for hiring. We have expanded the staff in certain areas to provide for increased efficiency as well as better instruction.

There was a time when the people of Wakefield could concern themselves with the needs and demands of Wakefield and the surrounding area when they made a decision regarding education. This can no longer be done. When educational decisions are made, part of the consideration must include what is happening throughout the state, New England and the nation. Twenty percent of the population in the United States moves each year. I would speculate that the percentage is not as high in Wakefield. However, most all of you can mention a friend or neighbor who has moved away in the last six months, or someone who has moved into the neighborhood. The problem is further illustrated by considering the number of our students who attend colleges or universities out of state. Last year our high school graduates attended college in 20 different states and Canada. Our youth leaving school to enter the world of work or higher education must be at least as well prepared as their peers from other places.

The curriculum of our School System has been in a constant state of analysis. It will continue to be evaluated as an on-going process in an attempt to provide the best that we can for Wakefield's youth and to keep pace with changing demands. Some of the changes that have taken place I will note to illustrate my point.

The programs in remedial reading and elementary French have been evaluated and re-directed. The emphasis on reading at the elementary level has changed from teaching children within a group to teaching children as individuals. This does not sound very difficult but it has rather far reaching implications. First of all, teachers need to be retrained to do this. Secondly, materials must be provided for the teacher and the child. The result, however, is that a child will be able to grow in reading as rapidly as possible, and the breadth and depth of his reading will be considerably greater. In the process he will be able to develop inde-

pendent study skills to a greater degree than is now possible. Some programs have been expanded, such as, speech therapy and adjustment counselor. We have taken advantage of federal programs available to us beyond those already in operation. I call your attention to the National Defense Education Act, Title III, supplementary science materials program, also the National Defense Educational Act individualized reading program and distributive education program. In the workshops that were mentioned earlier, every facet of our curriculum is being studied. As a result, course changes were recommended and adopted in the fields of social studies, business education, science and industrial arts. The library program in our schools was evaluated and recommendations for improvement through books, materials and increased staff was adopted. Curriculum reorganization was also recommended and put into effect. A non-graded reading program was started at the primary level and a systemwide semi departmentalized program at the intermediate level.

In an organization as large as this school department, it is important to have adequate and functioning lines of communication. To provide for this, an organization called the Administrative Council was created consisting of all the administrators. They meet twice a month with me to inform each other and to assist in making plans for overall educational improvement. The budgetary process has been revamped and in particular instances, standards have been adopted. I call your attention to the library standards and those in the area of audio visual aids. The central office has been reorganized, and the additional position of assistant superintendent has been provided. This has enabled us to place greater emphasis on staff evaluation, curriculum evaluation and improve systemwide articulation. It has also enabled us to cope with the changing demands of the central office administration. I call your attention specifically to the greater need for research today and the greater demands in such areas as negotiations with the custodians and the teachers. Each of the curricula areas have been strengthened by the reorganization of the departments. The position of the department head responsible for curriculum from 9-12 has been disbanded. In its place the position of department chairman has been created. They are responsible for curriculum in their department in grade 7-12 and have a liaison responsibility in grades 1-12. This has greatly assisted in the various studies now presently underway. Before I discuss other areas such as Buildings, I would like to stress that much of these things that I have mentioned could not have been accomplished without increased staff at the central office level. Fifteen studies have been reported in written form to the School Committee during this past year. These have covered every facet of education in their attempt to provide guidance in the policy making process.

Space is becoming a major problem. The seemingly small increases in enrollment have crowded our classrooms and other facilities. With classroom enrollments relatively high at the secondary level already, the influx of students over the last few years has created an undesirable situation. The School Building Needs Survey Committee has made a study of this problem and will report at the Town Meeting this year.

Adequate maintenance of our buildings is the most economical procedure in caring for them. The following has been completed this year.

MAJOR REPAIRS AND PLANT IMPROVEMENTS—1967

Senior High School

In the Atwell Building five classrooms were repainted and new pupil and teacher desks were placed in these rooms. Other painting projects in this building included the third floor corridor, the girl's shower and locker rooms and related areas.

Areas painted in the Memorial High School were eight classrooms, three corridors, the health suite and office areas. The wood paneling in the lobby was revarnished.

The boiler room ceiling was insulated, thus decreasing the excessive radiant heat in the mechanical drawing room, located above this area.

Fifty new street lockers were installed in the Memorial Building. Other improvements in this building included the installation of new window darkening drapes in three classrooms, and new additional convenience outlets in one of the typing rooms to supply electric typewriters. The gymnasium and auditorium stage floors were sanded and refinished.

The maintenance staff replaced two exterior doors in the Atwell cafeteria, constructed two office partitions for instructors without homeroom assignments in the old shop area. Additional work consisted of converting the former health suite in the Atwell Building into an office for the new Adjustment Counselor.

Two sections of the bleachers were replaced on Walton Field and the existing bleacher seats and foot boards were treated with a wood preservative.

Junior High School

The secondary exit doors in the classrooms and the smoke screen doors in the corridors have been refinished. To accommodate the additional students, twenty-five new lockers were installed. Conversion of two areas into special classrooms was required, and was furnished with new heating and ventilating units, furniture, tackboard and new lighting fixtures. A supplementary heating unit was installed in the seventh and eighth grade woodworking shops.

Elementary Schools

The electric service at the Warren School has been completely rewired. New electric panels and controls were installed in this building, also. Another electric project was the placing of vandal lights at the Montrose, Dolbeare and Warren Schools.

Painting at the elementary level included the following work: Doyle School exterior, Warren School interior, and the interior and exterior of the West Ward School.

Automatic door closers were installed on doors opening into stairways in eight schools. Glass in these areas with less than one hour fire rating was replaced with glass meeting this specification.

The heating system in the four classrooms of the older section of the Hurd School has been converted to modern unit heater ventilators. The remaining unit ventilators were modernized, and automatic tempera-

ture controls were installed in the auditorium and all classrooms in the building. All commode seats were replaced with modern, more sanitary plastic seating at the Greenwood School.

Vinyl-asbestos floor tile with new underlayment was installed in two classrooms at the Lincoln School and in one room at Greenwood. At the Hurd School four classroom floors were sanded and refinished. New tack-board was fitted and installed in several rooms at the Greenwood School.

Masonry work was performed at the Franklin and Greenwood Schools including pointing the granite belt below the first floor windows at the Franklin School and the capstones and masonry sills at Greenwood. The chimney at Montrose was capped and pointed.

The clapboard siding was replaced on the east side of the West Ward School, and at Dolbeare School new shelving was installed in an auxiliary area adjacent to the health room for the elementary school librarian. The roof over the auditorium at the Franklin School has been replaced.

Bituminous hot top was installed at the south side of Greenwood School and at the east and west entrance of Doyle School.

This report gives evidence that much has been accomplished during this past year. Further, it also indicates that there is still much to be done, not only to maintain the status quo, but in order to provide adequate education for the youth of this community. I would like to thank the School Committee and the community for the support that I have received this past year in trying to accomplish our united purpose.

Respectfully submitted,

THAYER D. WADE, Ed.D.

Treasurer, Gracemarie McCoy

CLASS POEM**IN PARTING**

Likened to a rushing spring
Clear, strong, and forward moving,
We set out in renewal of
The promises we made to ourselves
To search, to find.
Like the surging current, we carry with us
That knowledge gained and that yet unused,
And seek to find that truth
Which the spring itself does not find.
And this end today serves but as
The beginning of that search.

Christine Caroline Fregosi

*Retired October 1967**REPORT OF THE LIBRARY TRUSTEES—1967**

Former and present trustees of the Lucius Beebe Memorial Library gathered at dinner on Thursday evening, January 12, 1967 to honor Miss D. Marjorie Taylor and her ten years of gifted service to the library. Under Miss Taylor's guidance the library has become a valuable and cherished part of the life of the town.

In October the Board accepted with regret the resignation and retirement of Mr. Carl H. Brown from his duties as head library custodian. On Sunday afternoon, Nov. 5, 1967 the trustees honored the members of the staff and Mr. Brown at tea at the Colonel Hartshorne House.

In the 1967 Town Meeting the efforts of chairmen and trustees over a period of years culminated in a vote favorable to the expansion and remodelling of the main library facilities. A federal grant of \$90,000. toward the cost of the construction project was approved by the Bureau of Library Extension of the Massachusetts Department of Education. A study by the League of Women Voters had helped to appraise the citizens of available library services and the needed enlargement of these services.

The library building committee appointed by the town moderator comprised the following members: chairman, Mr. Paul Donovan, secretary, Mr. Daniel Hall, Mr. Raymond Smart, Mr. Earle Bears, Mrs. Raymond Wentzell and library trustees, Mr. Louis R. Sardella and Mr. Edward E. Lynch.

Dr. Thayer D. Wade, superintendent of schools, met with the Library Board on February 9, 1967 to discuss methods of joint operation between school and public libraries.

During the year Miss Taylor has attended many professional meetings, including the American Library Association Convention, and has reported them to the Library Board. Especially, she has kept in touch with the progress of the Eastern Regional Council and the opportunities offered by it to the local library.

Mr. Sardella, chairman of the Library Board, and his fellow members express gratitude to Miss Taylor and her staff for a year of efficient and dedicated service. The trustees thank the library patrons for their interest and support and eagerly await with them the opening of the expanded and improved Lucius Beebe Memorial Library.

LIBRARIAN'S ANNUAL REPORT—1967

1967 was the year which saw the passage by Town Meeting of an appropriation of funds to build an addition to the existing library building. Since then the Library Building Committee, under the able chairmanship of Mr. Paul A. Donovan, has been meeting with architects and preparing plans for the addition, with the expectation of breaking ground early in 1968. Meanwhile the work of the library has continued in its present quarters.

Work with children.

The appointment of an elementary school library coordinator, and the consequent strengthening of libraries in the grade schools has had and will continue to have an effect on our work with children. There has been an increase in the number of visits to the libraries by grade school classes. Including kindergartens, special classes, Girl Scouts and Bluebirds as well as school groups Mrs. Duggan, children's librarian, has welcomed more than 700 children in formal visits. They have been instructed in library use, listened to stories, seen films and borrowed books. The two branch librarians report a similar increase in school visits. We have loaned deposits of books to some school libraries until their own books are ready for use. The children's librarians have been helpful in setting up libraries at St. Joseph's School, as well as assisting the elementary school library coordinator in her selection of books.

Summer reading groups and winter pre-school story hours continue to be well attended, as well as the grade school film and story hour.

This year we borrowed 180 films from the Massachusetts Film Cooperative of which this library is a member. These were used with story hours and school groups. In addition to reading and reporting on books, watching films and learning about the library, this year's summer reading club presented a play—"The Reading Dog" at the last meeting of the group. It was repeated for the visit to the library of new elementary and high school teachers, and again for the St. Joseph's teachers and the parents of the group.

The Greenwood librarian has had the enthusiastic assistance of members of the Greenwood Junior Woman's Club in running a very successful pre-school program each week during the winter months.

Work with young adults.

While school libraries continue to improve, the high school student must still depend on the public library for background material for his studies. Our file of periodicals, going back in some instances ten, twenty or forty years (the "Atlantic" since 1857) is well used by high school students and adults, and with constant weeding and replacement, our pamphlet file is proving increasingly useful. Mrs. Bush, youth librarian, reports a greater demand among student teachers for books and information.

Work with adults.

1967 saw the completion of a five-year plan to build up reference sources, using \$2,000. voted by the town each year for this purpose. The money has been used in all parts of the system to update encyclopedias, add scientific works, and strengthen the library holdings in works analyzed in the various literary indexes. We have also strengthened our legal and business reference sources, and have added a card file on international affairs which is updated weekly.

Staff.

As noted in the Trustees' Report the library this year lost, by retirement, a highly valued member of the staff, Mr. Carl Brown, Sr., who was Building Custodian for many years. Otherwise the staff has seen little change this year. Staff members have attended local, state and national library meetings as well as film and book review meetings. They were available to give book talks to local clubs.

A group of children's librarians from neighboring towns met at the Greenwood branch library to hear Melrose author Mary Clarke talk about writing children's books.

In response to a request from the Montrose Parent Teachers' Association the Montrose Branch library is now open on Saturday mornings from 10-12.

For the first time since the Greenwood library was reopened in May 1963 the book stock has been weeded and inventory taken. Two new bookcases were added as well as a low table for young children.

The librarian and staff are grateful to many who have helped the library in many ways throughout the year, and hope to continue library service with as little disruption as possible during the building program.

MUNICIPAL LIGHT DEPT.

Report of Municipal Light Board

January 2, 1968

To the Citizens of the Town of Wakefield:

We submit for your consideration the seventy-fourth annual report of the Municipal Light Board for the year ending December 31, 1967.

The net profit of the Department was \$265,226.26 as compared to \$228,374.26 in 1966. The sale of gas increased 7% and electricity 8%.

The balance in our Operating Fund was \$184,553.81 as compared with \$201,765.57 in 1966.

The sum of \$200,000.00 was paid to the Town to be used in computing the tax rate for 1967. The total amount paid to the Town is \$2,208,229.57.

The Manager's report including financial statement for the year are included in this report.

Respectfully submitted,

JAMES B. WISWALL, Chairman
ANTHONY MINICHIELLO, Secretary
JOHN MORLEY

To the Board of Light Commissioners:

The following condensed Profit and Loss Statement shows the financial operation of the Department for the year ending December 31, 1967 and the difference from the previous year.

Sale of Gas and Electricity	\$2,195,188.75	Increase	\$103,440.66
Cost of Gas and Electricity	1,191,079.90	Increase	26,715.36

Paid to Town for the reduction of Real Estate Taxes	200,000.00	Decrease	25,000.00
NET	65,226.26	Increase	61,852.00

We are continuing our negotiations with Boston Edison Company for a high voltage power supply to assure adequate capacity for the future. It is hoped that agreement can be reached on rates and terms so that we can start work on the interconnection during 1968.

The additional transformer and switchgear for Burns station have been received and will be installed and wired during the first part of next year.

A truck with an aerial bucket was purchased and turned over to the Tree Department. In return for the truck, they will perform annual trimming of trees in and around our wires throughout Town.

On motion by Burton F. Whitcomb, chairman of the Board of Selectmen:

Voted: That this meeting be adjourned to Thursday evening, March 16, 1967 at 7:30 P.M.

Meeting adjourned at 11:57 P.M.

A True Record:

Attest: CHARLES F. YOUNG
Town Clerk

MARCH 16, 1967

Meeting called to order at the Memorial High School Building at 7:30 P.M. with Article 4 of the warrant in order.

ARTICLE 4

To see if the Town will raise and appropriate the sum of \$2,619.60 as Wakefield's share, 8.88% of the total assessment of \$29,500.00 for the twelve communities of the Northeast Metropolitan Regional Vocational School District.

School Committee

On motion by Finance Committee:

Voted: That the subject matter of Article 4 be indefinitely postponed.

Motion by Lewis Day:

That Article 3 be taken up again.

At 8 P.M., Chairman Whitcomb announced that a special meeting was called for 8 P.M., and moved that the Annual Meeting be adjourned until after the Special Meeting is concluded, and it was so voted.

Moderator Roger H. Wingate read the call for the Special Meeting.

Town Clerk Charles F. Young read the Constable's return for the Special Meeting.

SPECIAL MEETING

On motion duly made and seconded:

Voted: To adjourn the Special Meeting until after a vote is taken in the regular meeting on Mr. Day's motion to take up Article 3 again.

Special Meeting adjourned on motions duly made and seconded.

ANNUAL MEETING RESUMED

The Annual Meeting was then called to order, the question before the meeting being Mr. Day's motion to take up Article 3 again.

It was promptly voted, on motion of the "Previous Question," that the question be now put.

The vote by show of hands was: YES, 430 — NO, 120, and the Moderator declared that, lacking a two-third's majority, the motion was not carried.

School Committee

The Finance Committee recommended favorable action but did not recommend an appropriation, and it was so voted.

ARTICLE 7

To see if the Town will vote to amend Chapter XVII of the General By-Laws of the Town by deleting Section 3 — Personnel Board, paragraphs (a), (b), and (c) therefrom and substituting the following:

(a) There shall be a Personnel Board to administer the classification and compensation plans consisting of five members, not officers or employees of the Town, appointed by the Moderator, with all the powers and duties specified in Section 108C of Chapter 41 of the General Laws.

(b) The Moderator, not later than April first of the year in which the term of a member will expire, shall appoint a member as successor for a term of three years.

(c) If a member, appointed by the Moderator, resigns or his office becomes vacant by his removal from the Town, or other cause, the Moderator shall appoint his successor for the balance of the unexpired term of such member.

Personnel Board

On motion by Finance Committee:

Voted: That the Town vote to amend Chapter 17 of the General By-Laws of the Town by deleting Section 3 — Personnel Board and substitute Section 3— Personnel Board as described in Article 7.

ARTICLE 8

To see if the Town will vote to amend Chapter XVII of the General By-Laws of the Town by adding to Section 4 — Classification Plan, an additional paragraph (e) as follows:

(e) Cooperative or placement training college students, when occupying positions classified herein, shall be compensated in accordance with wage scales recommended by their college and approved by the Personnel Board, but in no case shall these scales exceed those established by Section 7 and 8 of this Plan.

Personnel Board

On motion by Finance Committee:

Voted: To amend Chapter XVII of the General By-Laws of the Town by adding to Section 4 — Classification Plan, paragraph (e) as described in Article 8.

ARTICLE 9

To see if the Town will vote to amend Chapter XVII of the General By-Laws of the Town by deleting Section 6 — Compensation Plan, therefrom and substituting the following:

(a) The Compensation Plan shall consist of Schedules B through E in Section 7 which provide minimum and maximum salaries or wages for the position classes in the Classification Plan. The salary range of a

position class shall be the salary range of all positions allocated to the class.

(b) All employees shall be paid on an hourly, weekly, monthly, or other basis, except as provided in the compensation plan, unless otherwise authorized by the Personnel Board.

(c) No department head shall fix the salary of an employee in a position so classified except in accordance with the compensation plan.

(d) No person shall be appointed, employed or paid as an employee in any position subject to the provisions of the classification plan under any title other than those appearing on Schedule A of Section 7.

(e) An employee in full-time employment shall be eligible to receive the increment between his present rate and the next higher step rate to and including maximum, as follows:

1) On January first or July first after completion of six months at the minimum or entrance rate of initial employment.

2) Thereafter one year from the date of his previous increase.

3) The increase in rate which this increment represents must be recommended by the employee's department head and approved by the Board.

4) The increase shall be based on performance of the employee during the preceding six-month or twelve-month period and not solely on length of service.

(f) An employee in continuous part-time employment shall be eligible to receive the increment between his present rate and the next higher step rate to and including maximum, at such time as recommended by his department head and approved by the Board, not earlier than following the completion of six months at his entrance rate and not earlier than following the completion of one year at any higher rate.

(g) An employee occupying a single class position for which compensation is provided on an annual basis on Schedule E of Section 7 shall be eligible for an increment after one year at a step rate.

An employee occupying a position for which compensation is provided on an hourly basis on Schedule E of Section 7 shall be eligible for increments as provided in sub-section (f).

(h) Any employee occupying a position in the classification plan who is not recommended to receive the increment specified in sub-sections (e), (f) or (g) shall have the right to appeal to the Board.

(i) Upon receipt of such appeal the Board may initiate and approve the increment without the recommendation of the department head after hearing both the employee and the department head or may deny the appeal.

(j) In the event the Board's denial of the appeal, the employee may proceed according to the provisions of Section 3 (k).

(k) A new full-time employee denied an increment after six months' continuous employment shall be considered again for such increment on

January first or July first following completion of twelve months' continuous employment.

(l) The entrance rate shall be the minimum rate unless a step rate above the minimum rate, not to exceed the maximum rate, is approved as an entrance rate by the Board as provided in Section 3 (h).

(m) An employee receiving a promotion to a vacant position or to a new position as defined in Section 4 (b) shall, upon assignment resulting from such promotion, receive the rate in the compensation grade of the vacant or new position next above his existing rate. He may upon recommendation of the department head and approval of the Board at the time of promotion be advanced to the second step rate above his existing rate.

(n) Nothing in the preceding sub-section shall be construed to mean that the rate of the employee receiving a promotion is the entrance rate.

(o) Each department head of a department to which is assigned an employee occupying a position in the classification plan shall include in his estimates required by the provisions of Section 59 of Chapter 41 of the General Laws a pay adjustment section setting forth in detail the amounts which will be required for anticipated pay adjustments during the ensuing year and shall furnish a copy thereof to the Board.

(p) To enable the recognition of long service to the Town and/or outstanding performance, two rate increments above maximum, to be known as Maximum II and Maximum III, are established as follows:

1) Effective July 1, 1967, an employee in full-time employment or continuous part-time employment, shall be eligible to receive the increment between maximum and maximum II, provided he has been at maximum of his classification for a period of not less than two full years and is recommended by his department head in accordance with other provisions of this section.

2) An employee in full-time employment or continuous part-time employment, shall be eligible to receive the increment between maximum II and maximum III provided he has been at maximum II for a period of not less than two full years and is recommended by his department head in accordance with other provisions of this section.

Meeting called to order at 7:35 P.M. by Moderator Roger H. Wingate who read the call for the meeting, at the Memorial High School Auditorium.

Constable's return read by Charles F. Young, Town Clerk.

RESOLUTION

At the request of William J. Lee, unanimous permission was granted him to read the following resolution:

RESOLUTION

Whereas: George F. Gardner is absent from our midst in this Town Meeting, and

Whereas: George F. Gardner has been called to a life of eternal reward after having contributed a lifetime of service to his family, his church and his community, and

Whereas: He was blessed with high integrity and intellectuality, and

Whereas: His mark upon the Town of Wakefield will provide Town officials and citizens of the Town with a high standard of objectivity, and

Whereas: Almighty God, in His wisdom, has called George F. Gardner from his lifetime of worldly service, now therefor be it

Resolved: That the Town, in Town Meeting assembled, recognize in sincere appreciation the many contributions of George F. Gardner and stand in a moment of sorrow, and that the resolutions herein enunciated be made a permanent record of the Town of Wakefield.

The foregoing resolution was read by Mr. Lee and it was

Voted Unanimously: To adopt the resolution and that the meeting attendants stand for one minute of silence in memory of Mr. Gardner.

The meeting attendants then stood for one minute.

1954 - 1967 INDEBTEDNESS RECAPITULATION

Fifty-third Annual Report of the Town Accountant

FOR THE YEAR ENDING DECEMBER 31, 1967

The total cash expenditure processed by the Town Accountant's Office amounted to \$12,188,921.81.

The total cash receipts amount to \$12,285,183.53 which indicates the necessity for serious attention and consideration in this area of the Town's financial program.

The operational and indebtedness cost of town services can be examined by the simple comparison with other immediately surrounding communities.

This method of comparison brings the tax rate and valuation variables together in the formation of a comparative per-capita cost factor.

			Oct. 1, 1967	1967	Per	Per	Per.
	1965	1967	Gross	Tax	Cap.	Cap.	Cap.

Dedham	26,618	68,808,050	7,477,000	79.00	2,585.01	204.21	280.90

The growth of the town in population and valuation is directly related to increased operational cost. The creation of non-existent facilities in areas of the town that have heretofore been undeveloped and apart from the service arterials have required increased capital expenditures in an era of high construction costs.

The records of the Treasurer have been examined and found to be in agreement with the Accountant's balances.

Cash balances have been verified and are distributed as follows:

Wakefield Trust Company	\$ 786,489.91
State Street Bank & Trust Company	26,122.72
Surety Bank & Trust Company	25,166.66
New England Merchants National Bank	11,000.00
National Shawmut Bank	17,291.67
Boston Safe Deposit	15,000.00

TOTAL

\$1,582,601.34

1967-1983 INDEBTEDNESS PROJECTION

Trust Funds have been checked by examination of Securities, Savings Bank Accounts and Deposit Books.

Funds of the Contributory Retirement System have been verified by examination of Bank Books, Securities and the checking account balance was in agreement with the Accountant's balance. Funds are invested as follows:

Savings Banks	\$ 80,030.94
Co-operative Banks	8,000.00
Investment Stock	219,648.03
Public Utility Bonds	543,321.27
